Profile

Data Scientist with Three Years of Experience Specializing in transforming datasets into valuable strategies to drive business growth. Proficient in Python, SQL, Machine Learning, and visualization tools. Committed to delivering data-driven solutions that directly benefit the company, enhance customer relationships, and strengthen business decision-making.

Hard Skill

Programming Languages:
Python, R, and C

Database : SQL, MySQL,CSV.

Libraries and Frameworks: Pandas, NumPy,Request, Beautiful Soup.

Machine Learning : TensorFlow, PyTorch, Scikit Learn y Keras.

(NLP): Hugging Face, NLTK y spaCy

Business Intelligence and Visualization:
Power BI, Matplotlib y Seaborn.

Cloud Platforms:
Azure

Tools and Platforms:
Git & GitHub

Development Environments:
Visual Studio Code, Jupyter Notebook, Colab

Web Scraping

Language

Spanish: Native

English: Intermediate

For Learning

Django, AWS, GCP, Tableau, Hadoop, Spark, Flink, Big Query, PySpark, Data Studio, Airflow, Looker.

Professional Experience

Freelancer 01/01/2020 - Present (CABA)
Data Scientist
As a freelance Data Scientist, I specialize in crafting advanced solutions tailored to clients' unique needs. My expertise encompasses the full project lifecycle, from meticulous data extraction using web scraping techniques and insightful analysis to strategic development and impactful visualization of complex machine learning models, including Natural Language Processing (NLP) applications. I excel at conveying intricate technical insights in a clear manner, enabling businesses to make informed, data-driven decisions.

Analytics Town 01/09/2022 - 16/12/2022 - (CABA)
Data Scientist
During my role at Analytics Town, I provided essential data analysis for Amazon, fortifying their e-commerce strategies. My work showcased precise analyses that guided informed decisions. I adeptly communicated intricate insights, contributing to business growth.
Tech stack: Python, web scraping, data analysis, machine learning, NLP, streamlit, MySQL, Scrapy, Azure.
Skills: Computer Science, Mathematics, Data Analysis, English, Scikit-learn, Azure, SQL, Git.

Convex 01/01/2020 - 15/01/2021 Villa Martelli (GBA)
Electronic Operator
At Convex, I meticulously fabricated Industrial Battery Chargers, embodying precision, and innovation.

Service & Solutions 01/01/2018 - 01/06/2019 Microcentro (CABA)
Maintenance Technician
In my role at Service & Solutions, I conducted both preventive and corrective maintenance for electrical and IT installations at a Banco Macro branch. My interventions bolstered operational resilience, highlighting my dedication to seamless infrastructure functioning.

Education

2021 – Present
Computer Engineering
National University of La Plata | La Plata, Argentina

2021 – 2021
Data Science Course
National Technological University (UTN)

2020 – Present
Software Developer Program
Platzi | Digital Academy

2014 – 2020 (third year)
Electronic Engineering
National University of La Plata | La Plata, Argentina

2008 - 2013
High School
Economics and Organizational Management | Formosa
